NEW
PRODUCT

52501 OA KNEE BRACE

SIZE | UNIVERSAL L/R

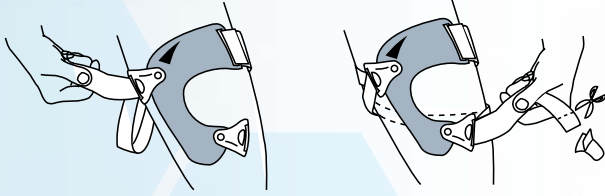

INDICATIONS

- Mild to moderate osteoarthritis knee

FEATURES

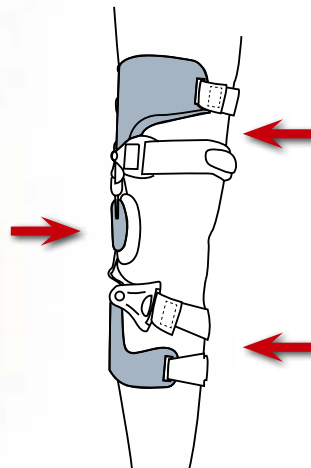

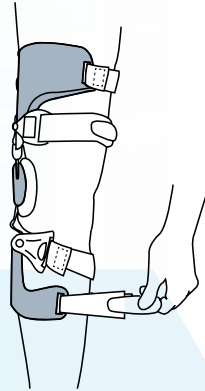

- Better strapping system for 3 point leverage offloading
- Single upright, cushioning padding for lightweight and dynamic fit
- Simple yet reliable design
- Seamless binding lining pads and condyle pad for excellent comfort
- Flexion/ extension limitation stops are available

NEW PRODUCT

From the medial end of the top of thigh frame, have the strap go around posterior thigh.

Keep the calf strap attached through the triangular buckle of upper medial calf frame. Fasten the calf strap in the same way as thigh strap.

Better strapping system for 3 point leverage offloading

WellBind Series

Seamless Binding, Pressure Relieving
For delicate hands and wrists

Hot pressing laminated binding technique reduces
excessive friction and pressure

1. Universal design for left and right hand

2. Removable plastic stays and aluminum tray for stability

3. Seamless fabric laminated binding technique reduces excessive friction and pressure

42301 WellBind THUMB BRACE

SIZE | S/M L/XL

INDICATIONS

- De Quervain syndrome
- Thumb ligament sprain

FEATURES

- Universal design for left and right hand
- Designed malleable aluminum stay provides stabilization
- Supportive foam and fabric provide high level comfort

41301 WellBind WRIST BRACE

SIZE | S M L XL

INDICATIONS

- Carpal tunnel syndrome
- Wrist joint sprain or overuse syndrome

FEATURES

- Universal design for left and right hand
- Removable plastic stays and anatomically contoured stray enhance stability
- Perforated straps and foam facilitate airflow, improve compliance and comfort

31301 WellBind ELBOW BRACE WITH SILICONE

SIZE | UNIVERSAL

INDICATIONS

- Tennis elbow
- Golfer's elbow

FEATURES

- Universal design fits left and right, one size fits all
- Removable silicone padding applies pressure relieving around painful site
- Perforated straps and foam facilitate airflow, improve compliance and comfort

Silicone Pad

Inside

wellcare

WellKnit Series

WellKnit Series

For those who are allergic to latex or neoprene, Wellknit will provide superior support, proprioceptive feedback and facilitate muscle function. 3D weaving design improves breathability and flexibility. Wellknit series is ideal for symptomatic support while engaging in active mobility.

23401 WellKnit SILICONE BACK SUPPORT

SIZE | S M L XL XXL

INDICATIONS

- Low back pain

FEATURES

- Removable silicone pad helps to aid firm stabilization
- WellKnit fabric fits your back snugly

23402 WellKnit BACK STABILIZER

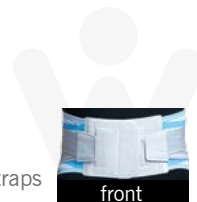

SIZE | S M L XL XXL

INDICATIONS

- Mild disc/ degenerative problems

FEATURES

- 4 plastic stays support back and help realign posture
- WellKnit fabric fits snugly, plus side straps for better stabilization

42401 WellKnit WRIST BRACE

SIZE | S M L XL

INDICATIONS

- Wrist instability or chronic pain

FEATURES

- Silicone padding for release excessive pressure around bony structures
- Removable strap could be adjusted for additional stabilization

Palmar Side

31401 WellKnit ELBOW BRACE

SIZE | S M L XL

INDICATIONS

- Overuse injury or ligament sprain

FEATURES

- Silicone padding for release excessive pressure around bony structures
- Removable strap for pressure adjustment over painful elbow joint

52401 WellKnit KNEE BRACE

SIZE | S M L XL

INDICATIONS & FEATURES

- Perfect for chronic swelling knee or mild osteoarthritis and other mild knee condition
- Silicone padding around kneecap for protection and pressure relief
- Removable elastic upper and lower straps for stabilization

62401 WellKnit ANKLE BRACE

SIZE | S M L XL

INDICATIONS & FEATURES

- Silicone padding relieves excessive pressure around bilateral malleolus
- Removable and elastic strap fits left and right ankle, provides lateral-to-medial tension for inversion injury (also inversion tension for eversion sprain)

Adjustable Strap

21101 ARM ABD ORTHOSIS

SIZE | S M L L/R

INDICATIONS

- Following rotator cuff repairs and post operation
- Dislocation problems

FEATURES

- 0°, 30°, 60°, 90° immobilization control
- Combined with padding and double strapping system for secure fit and comfort
- Featured arm stay for sufficient support and preventing circulatory problems

Double Strapping System for Stabilization

13101 MINERVA CTO

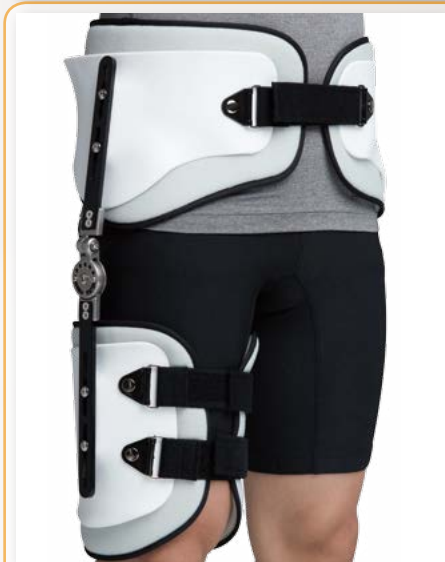

SIZE | UNIVERSAL

INDICATIONS

- Post surgery or stable fractures
- Degenerative joint disease
- C3 to upper thoracic flexion injury

FEATURES

- Minerva type cervical thoracic orthosis
- One size fits all, adjustable with simple hex wrench and screw driver
- Countered frame supports occiput and chin aids in stabilization
- Easy to fit in supine position with minimal disturbance
- Removable foam padding and strapping for comfort and optimized fitting

26101 HIP ORTHOSIS

SIZE | REGULAR L/R

INDICATIONS

- Following hip replacement surgery
- After a hip dislocation or severe hip condition

FEATURES

- Anatomically contoured shell for better fitting
- Adjust width and height by hex wrench and screw driver, also ensure secure application
- Removable foam padding and strapping for comfort and optimized fitting
- Fit left and right side by switching the shaft of the angle adjustment mechanism to the other side
- Angle adjustment mechanism: adjust flexion/extension in 20° increments, adduction/abduction in 16° increments

Post-OP Protector

Wellcare provides post-op braces following different types of surgeries. Here are newly released Hip Orthosis, Minerva CTO and Arm ABD Orthosis. With simple hex wrench and screw driver, the size and the angle could be adjusted. Easy to adjust, secure for fit, protect injured joints in any condition.

Angle adjustment mechanism via screws

Secure safe stabilization and height adjustment

Adjust height and width through hex wrench

Pressure Care & Restraints

For patients' safety and skin care

62801 FOOT POSITIONER

SIZE UNIVERSAL - PAIR

- Wavy and vented PU foam protect heels from skin breakdown and helps distributing pressure
- Supporting PP plate under calf muscles for better positioning
- Easy to apply with hook and loop fasteners

62802 HEEL PILLOW

SIZE UNIVERSAL - PAIR

- Cotton filling for supporting good position of low leg and distributing pressure
- Soft touch and skin-friendly liner for compatibility
- One size fits most
- Heel opening design for easy inspection and avoiding excessive pressure

Pressure Care & Restraints

71801 WEDGE POSITIONER

SIZE UNIVERSAL

- Firm density PU foam for sleep positioning and support
- With easy-to-clean fabric lining

71802 LIMB ELEVATOR

SIZE UNIVERSAL

- Firm density PU foam for supporting arm joints or ankle joints especially for bedside care
- With easy-to-clean fabric lining

71803 JOINT POSITIONER

SIZE UNIVERSAL

- Firm density PU foam for supporting joints especially knee
- With easy-to-clean fabric lining
- Durable strap for secure fit

71811 LIMB HOLDER

SIZE UNIVERSAL - PAIR

- Soft cushioning and breathable padding adds comfort
- Durable straps with quick release buckle
- No latex

71812 HAND HOLDER

SIZE UNIVERSAL - PAIR

- Breathable hand holder with zip opening for easy inspection of fingers and oxymeter application
- Durable and light touch polyester straps

71813 CHEST RESTRAINT

SIZE UNIVERSAL

- Soft cushioning and breathable padding adds comfort
- Durable straps with quick release buckle
- No latex

Functional Foot Care Products

Functional socks for stress relief plus gentle and efficient pain control

Diabetic socks as daily partners for all day comfort

Advanced Dropfoot Lifter and Arch Lifter for structural support and improvement of quality of life

Simple and quick adjustment

61601 PLANTAR FASCIITIS SOCK

SIZE | S/M L/XL | -- PCS

INDICATIONS

- Calf muscle tightness and inflexibility
- Plantar fasciitis and related heel pain

FEATURES

- Gently stretch plantar fascia and calf muscle
- Suitable for night use: efficient pain relieving effect
- Adjust desired and comfortable pressure as needed
- Packed per piece

61602 PLANTAR FASCIITIS COMPRESSION SOCK

SIZE | XS S M L XL | -- PCS

INDICATIONS

- Calf muscle tightness and inflexibility
- Plantar fasciitis and related heel pain

FEATURES

- Compression sock improves circulation especially for calf muscle swelling from exercise or daily activity
- Suitable for night use: efficient pain relieving effect
- Adjust desired and comfortable pressure as needed

61691 DIABETIC ANTIBACTERIAL SOCKS

SIZE | S/M L/XL

INDICATIONS

- Diabetic foot
- Foot conditions with wound dressings

FEATURES

- Bamboo charcoal and silver fiber for odor control and germproof effect
- Extra room for toes, no excessive pressure for sensitive foot

Non slip weaving pattern yet still allows wide opening for pressure free

61692 DIABETIC DAILY SOCKS

SIZE | S M L

INDICATIONS

- Diabetic foot
- Sensitive foot

FEATURES

- Seamless design for daily use
- No excessive pressure for sensitive foot

62040 DROPFOOT LIFTER

SIZE | UNIVERSAL

INDICATIONS

- Mild drop foot
- Add ankle dorsiflexion lifting

FEATURES

- Put inside casual shoes or sneakers
- Breathable and cushioning fabric avoid excessive friction
- Durable strap supports well

63051 ARCH LIFTER

SIZE | UNIVERSAL

INDICATIONS

- Supports fallen arch
- Mild plantar factiitis

FEATURES

- Fits in most shoe
- Terry cloth foam padding for lifting arch gently, elastic unapped fasteners add comfort and secure closure

FitWell Series

Innovative Design- Low Profile, Lightweight, Breathable, Fit Well.

23601 SACROFIT BELT

SIZE S M L XL

INDICATIONS

- Sacroiliac joint pain
- SI joint hypermobility/ instability

FEATURES

- Stabilizing sacroiliac joint
- Help to promote injured tissue healing
- Soft and low profile air mesh plus breathable elastic band fit under clothing

Front

23602 LUMBOFIT SUPPORT

SIZE S M L XL

INDICATIONS

- Mild disc problems
- Chronic back pain

FEATURES

- Help to stabilize low back
- Extra wide elastic straps for compressive effect and stabilization
- Plastic stays beside avoid direct pressure on bony process and provide additional support
- Soft and low profile air mesh plus breathable elastic band fit under clothing

Front

23603 LUMBOFIT PANEL BRACE

SIZE S M L XL

INDICATIONS

- Mild to moderate disc problems
- Non-specific low back pain

FEATURES

- Back panel helps to provide stabilization and support
- Effective side straps for compressive effect, ensure better fitting
- Low profile mesh and elastic band for breathability and comfort

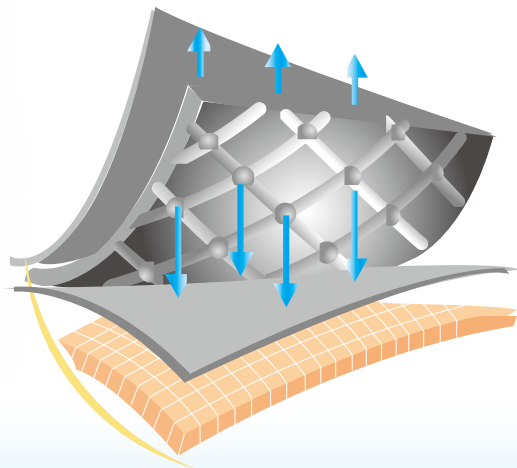

Front

Degradable and eco-friendly	Not degradable and pollutant

21012 SHOULDER SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Shoulder bursitis
- Shoulder tendinitis
- Mild shoulder instability

FEATURES

- Ensure proper fit via closures at the arm and chest
- Help to stabilize shoulder joint in space
- One size fits all

31013 ELBOW SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Joint effusion and swelling
- Collateral ligament sprain

FEATURES

- Easy to put on and take off with wrap-around style
- Provide pressure relief around inflamed soft tissues

31014 ELBOW STRAP

SIZE S M L XL

INDICATIONS

- Tennis elbow (Lateral epicondylitis)
- Golfer's elbow (Medial epicondylitis)

FEATURES

- Silicone pad helps to provide pressure relief around inflamed soft tissues
- Adjustable hook and loop fasteners for compressive effect

Silicone Pad

23014 LUMBAR SUPPORT WITH STAYS

SIZE S M L XL XXL

INDICATIONS

- Low back pain
- Mild spondylosis

FEATURES

- Four metal stays help to provide stabilization and support
- Effective side straps for compressive effect, ensure better fitting

Front View

62039 CONTOUR ANKLE STABILIZER

SIZE S M L XL L/R

INDICATIONS

- Ankle instability
- Mild to moderate ankle sprain

FEATURES

- Anatomically contoured stay helps to stabilize ankle joint without reducing mobility
- Extended strap adds additional support for the sprained joint

Contoured Stay Inside

62029 ANKLE SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Articular effusion and swelling
- Moderate ankle sprain and strain

FEATURES

- Easy to put on and take off with wrap-around style
- Bilateral crisscross straps reinforce ankle stability and offer additional compression

WellDry™ Series

41002 WRISTLET BRACE

SIZE | UNIVERSAL

INDICATIONS

- Joint effusion and swelling
- Slight wrist instability

FEATURES

- Help to stabilize wrist joint
- Provide stable support and pain relief

42024 WRIST BRACE

SIZE | UNIVERSAL

INDICATIONS

- Wrist sprain and strain
- Wrist instability

FEATURES

- Provide comfortable compression and support to the wrist joint
- Low cut design allows for free hand movement

42025 THUMB BRACE

SIZE | UNIVERSAL

INDICATIONS

- De Quervain syndrome
- Gamekeeper's thumb
- Thumb sprain and strain

FEATURES

- Contoured aluminum splint immobilizes thumb movement
- Ergonomic design plus hook and loop fasteners ensures easy application and precise fit

52030 KNEE SUPPORT WITH STAYS

SIZE | S M L XL

INDICATIONS

- Collateral ligament injuries
- Knee sprain and strain
- Chondromalacia

FEATURES

- Bilateral Spiral metal stays help to support the joint
- Compound material design with mesh fabric provides breathability and moisture control
- Upper and lower straps for stabilization and compression

52031 KNEE SUPPORT

SIZE | UNIVERSAL

INDICATIONS

- Mild knee sprain and strain
- Mild osteoarthritis
- Anterior knee pain

FEATURES

- Easy to put on and take off with wrap-around style
- Open patella design relieves pressure and enhances stabilization

52032 HINGED KNEE SUPPORT

SIZE | S M L XL

INDICATIONS

- Collateral ligament injuries
- Moderate knee sprain and strain
- Meniscus injuries

FEATURES

- Bilateral hinges provide support and stabilization for collateral ligaments
- Control the terminal extension angle for load relief
- Easy to put on and take off with front closure design

Wrap-around Series

- One size fits all, for left and right side
- Easy to put on and take off with wrap-around style
- Secure comfortable fitting with superior compound material
- Neoprene material provides warmth and compression, enhances circulation for healing

41601 WRAP-AROUND WRIST SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Joint effusion and swelling
- Slight wrist instability

FEATURES

- Help to stabilize wrist joint

31008 WRAP-AROUND ELBOW SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Joint effusion and swelling
- Collateral ligament sprain

FEATURES

- Provide pressure relief around inflamed soft tissues

52009 WRAP-AROUND KNEE SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Patellar instability
- Mild knee sprain and strain
- Mild osteoarthritis

FEATURES

- Round patella donut offers stabilization and prevents patellar displacement

52601 WRAP-AROUND KNEE BRACE

SIZE UNIVERSAL

INDICATIONS

- Anterior knee pain
- Mild knee sprain

FEATURES

- Short version, secure fitting, free movement
- Spiral metal stays add support

62022 WRAP-AROUND ANKLE SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Articular effusion and swelling
- Mild ankle sprain

FEATURES

- Help to stabilize ankle joint without reducing mobility

Knitting Series

- Knitted high-tension elastic material
- Provide warmth, breathability and moisture control
- Support firmly and fit comfortably during movement

52019 ELASTIC KNEE SUPPORT

SIZE | S M L XL XXL

INDICATIONS

- Articular effusion and swelling
- Mild osteoarthritis

FEATURES

- Firm support, secure fitting, free movement

52020 KNEE SUPPORT

SIZE | S M L XL

INDICATIONS

- Articular effusion and swelling
- Mild knee sprain/ strain
- Mild osteoarthritis

FEATURES

- Spiral metal stays for additional support

Front View

52021 KNEE SUPPORT WITH SILICONE CUSHION

SIZE | S M L XL

INDICATIONS

- Articular effusion and swelling
- Patellofemoral pain syndrome
- Mild osteoarthritis

FEATURES

- Silicone patellar buttress for pain relief

Front View

62023 ELASTIC ANKLE SUPPORT

SIZE | S M L XL XXL

INDICATIONS

KNEE BRACE

KNEE BRACE

KNEE BRACE

52005+ FUNCTIONAL KNEE BRACE

SIZE | S M L XL L/R

INDICATIONS

- Knee instability due to ACL/ PCL problem
- To restrict the range of motion after reconstructive surgery
- Recommended for low to medium impact sports

FEATURES

- Adjustable ROM hinge can be locked at -10°, 0°, 10°, 20°, 30°
- ROM control in 10° increments: Flexion -10° to 120°, Extension -10° to 30°
- Simply pull, rotate and quick-lock flexion/ extension settings
- Knee-contoured condyle pads for superior comfort
- Rigid frame and six strong straps provide desirable stability

Cushioning Padding and Updated Buckles for Comfortable and Easy Application

52602 PATELLAR TRACKING STABILIZER

SIZE | S M L XL

INDICATIONS

- Patellofemoral pain syndrome with maltracking or patella dislocation
- Patellar tendonitis
- Anterior knee pain

FEATURES

- Detachable design for right and left knee
- Patellar buttress and straps help stabilize the patella in proper position
- Ergonomical biaxial hinge provide stability and support

Detachable Patellar Buttress Adds Stability And Adjustable for Right & Left Knee

52603 KNEE WRAP STABILIZER

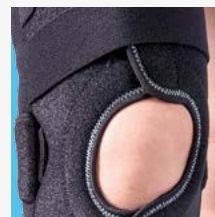

SIZE | S M L XL

INDICATIONS

- Collateral ligament and meniscus injuries
- Moderate knee sprain and strain
- Mild to moderate osteoarthritic knee

FEATURES

- Open wrap design for secure and individual fit
- Double upper straps enhance support
- Light patellar buttress and wide opening for comfortable touch and prevent excessive pressure around anterior knee
- Ergonomical biaxial hinge provide stability and support

Wide Patellar Opening for Support and Comfort

52004 FUNCTIONAL KNEE BRACE

SIZE S M L XL L/R

INDICATIONS

- ACL / PCL / MCL / LCL and combined instabilities
- Protection and restriction of ROM after reconstructive surgery
- Recommended for low to medium impact sports

FEATURES

- Adjustable ROM hinge can be locked at 0°,15°,30°,60°,90°
- Cushioning and anti-slip contoured knee condyle pads hold joint in place
- Rigid frame and six strong straps provide desirable stability
- Ergonomically contoured frame padding adds comfort

ROM Hinge with Pin Stops

Setting with Movable Stop Pegs

52028 KNEE LIGAMENT DEFENDER

SIZE S M L XL L/R

INDICATIONS

- ACL/ PCL/ MCL/ LCL and combined instabilities
- Protection and restriction of ROM after reconstructive surgery
- Recommended for low to medium impact sports

FEATURES

- ROM control limitation: Flexion at 45°,60°,75°,90°;
- Extension at 0°,10°,20°,30°,40°
- Polycentric hinge with plug-in flexion/ extension stops
- High-strength streamline aluminum frame provides superior stability
- Soft condyle pads and padded straps for desirable comfort

Replace ROM Plug-in Stops as Needed

Secure Flexion/ Extension Stops with Screw

52001 POST-OP KNEE BRACE

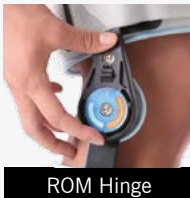

SIZE | UNIVERSAL

INDICATIONS

- Immobilization or ROM control for ligament and fracture-related surgeries

FEATURES

- Low-profile ROM hinge can be locked at 0° to 90°
- Simply rotate and quick-lock flexion/extension settings
- ROM control in 10° increments: Flexion 0° to 120°, Extension 0° to 90°
- Telescoping design for tool-free length adjustment from 19.5" – 24.5"

ROM Hinge

Telescoping Design

Lock Button

52002 POST-OP KNEE BRACE

SIZE | UNIVERSAL

INDICATIONS

- Immobilization or ROM control for ligament and fracture-related surgeries

FEATURES

- Low-profile ROM hinge can be locked at 0° to 90°
- ROM control in 10° increments: Flexion 0° to 120°, Extension 0° to 90°
- Simply rotate and quick-lock flexion/extension settings
- Full wrap version with comfortable and skin-friendly foam padding material

52003 POST-OP KNEE BRACE

SIZE | UNIVERSAL

INDICATIONS

- Post-operative immobilization
- Rang of motion control for stabilization
- Following collateral/ cruciate ligaments surgery

FEATURES

- Tool-free length-adjustable collateral bars prevent valgus and varus deformity
- Newly designed adjustable ROM hinges with super wide range setting
- Extension limitation from 0°-120°. Flexion limitation from 0°-120°. Immobilization fixation from 0°-90°. Adjustable in every 15° increments
- Simply rotate and press lock setting
- Easy to put on and take off by sidebuckles
- Length adjustable from 19" to 24"

Adjustable Length

Lock Setting

52016 KNEE IMMOBILIZER

SIZE | S M L XL

INDICATIONS

- Post-operative immobilization
- ACL / PCL / MCL / LCL injuries

FEATURES

- Three panel design for individualized fit
- Provide firm immobilization and complete support
- Breathable foam and skin-friendly material
- Available in lengths 16", 18", 20", 22", 24"

52007 NEOPRENE KNEE SLEEVE

SIZE | S M L XL

INDICATIONS

- Articular effusion and swelling
- Knee sprain and strain
- Mild osteoarthritis

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Anatomical cutting for comfortable fit and protection

52008 KNEE SLEEVE WITH OPEN PATELLA

SIZE | S M L XL

INDICATIONS

- Patellar instability
- Mild knee sprain and strain
- Mild osteoarthritis

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Anatomical cutting for comfortable fit and protection
- Round patellar donut offers stabilization and prevents patellar displacement

52006 PATELLAR TRACKING ORTHOSIS

SIZE | S M L XL L / R

INDICATIONS

- Patellofemoral pain syndrome with maltracking or patella dislocation
- Patellar tendonitis

FEATURES

- Four non-elastic straps secure the orthosis against rotational forces
- Patellar buttress and straps help stabilize the patella in proper position
- Uniaxial hinge for medial/lateral support and hyperextension control

52010 PATELLAR TENDON STRAP

SIZE | UNIVERSAL

INDICATIONS

- Patellar tendinitis (Jumpers' knee)
- Osgood-Schlatter disease

FEATURES

- Contoured TPE pad on patellar tendon for pain relief
- Low-profile design for all day comfort
- Reduce strain on the patellar tendon

52034 WRAP PATELLAR SUPPORTER

SIZE | S M L XL

INDICATIONS

- Patellar instability or subluxation
- Patellar lateral tilt
- Chondromalacia

FEATURES

- Easy to put on and take off with front closure design
- Additional elastic straps for compressive effect

KNEE BRACE

52012 HINGED KNEE SUPPORT

SIZE | S M L XL

INDICATIONS

- Collateral ligament injuries
- Moderate knee sprain and strain
- Patellar subluxation/ tilting
- Meniscus injuries

FEATURES

- Provide support and stabilization for collateral ligaments
- Control the terminal extension angle for load relief
- Round patellar donut relieves pressure on patella

52013 WRAP-AROUND HINGED KNEE SUPPORT

SIZE | S M L XL

INDICATIONS

- Collateral ligament injuries
- Moderate knee sprain and strain
- Meniscus injuries

FEATURES

- Provide support and stabilization for collateral ligaments
- Control the terminal extension angle for load relief
- Easy to put on and take off with front closure design

52015 16"

52014 POLYCENTRIC HINGED KNEE SUPPORT

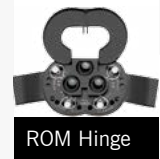

SIZE | S M L XL

INDICATIONS

- Collateral ligament injuries
- Cruciate ligament sprain
- Post meniscus surgery

FEATURES

- 13" length, also available for 16"(52015)
- Controls flexion and extension at 0°, 15°, 30°, 60°, 90°
- Provide support and stabilization for collateral ligaments

ROM Hinge

52035 KNEE ROM STABILIZER

SIZE | S M L XL

INDICATIONS

- Mild to moderate osteoarthritis
- Mild instability

FEATURES

- Easy to put on and take off with lateral pulls and front open design
- Both side stays provide stability and pressure relief
- Breathable mesh lining and soft material provide support and comfort

52017 STABILIZED KNEE SUPPORT

SIZE | S M L XL

INDICATIONS

- Mild collateral ligament injuries
- Knee sprain and strain
- Chondromalacia
- Mild osteoarthritis

FEATURES

- Provide collateral support by spiral metal stays
- Hook and loop closures allow adjustment for ideal compression
- Round patellar donut offers stabilization and prevents patellar displacement

Silicone Insert

52018 KNEE SUPPORT WITH MASSIVE DOTS

SIZE | S M L XL

INDICATIONS

- Patellar instability or subluxation
- Patellar lateral tilt
- Chondromalacia

FEATURES

- Provide collateral support by spiral metal stays
- Special-designed silicone insert offers pain relief and massage effect
- Comfortable wearing with mesh fabric material on the back

- Plantar fasciitis
- Achilles tendonitis

FEATURES

- Soft foam liner and padded straps provide excellent comfort
- Optional wedge for additional stretch if needed
- Anti-slip outsole ensures steady steps and standing
- Suitable for night use: efficient pain relieving effect

Dorsiflexion Wedge
20°, 30°, 40°

62016 SOFT NIGHT SPLINT

SIZE | S M L

INDICATIONS

- Plantar fasciitis
- Achilles tendonitis

FEATURES

- Skin-friendly fabric and washable, soft foam padding system
- Soft padded shell relieves pressure and provides protection
- Optional wedge for additional stretch if needed
- Suitable for night use: efficient pain relieving effect

62017 DORSAL NIGHT SPLINT

SIZE | S/M L/XL

INDICATIONS

- Plantar fasciitis
- Achilles tendonitis

FEATURES

- Suitable for night use: efficient pain relieving effect
- Low profile and lightweight design enhances compliance
- Plastic shell allows a gentle stretch of the plantar fascia
- Hook and loop closures for adjustable fit

62012 AFO SPLINT

SIZE | S M L XL L / R

INDICATIONS

- Drop foot due to hemiplegia, peroneal nerve palsy or orthopedic conditions

FEATURES

- Pre-fabricated polypropylene (PP) ankle-foot orthosis
- Provide a dorsiflexion assist while walking
- Low profile and easy to trim with scissors

62013 AFO LEAF SPRING

SIZE | S M L XL L / R

INDICATIONS

- Drop foot due to hemiplegia, peroneal nerve palsy or orthopedic conditions, better for flaccid type dropfoot

FEATURES

- Pre-fabricated polypropylene (PP) ankle-foot orthosis
- Provide a dorsiflexion assist while walking
- Lightweight and comfortable open heel design
- Low profile and easy to trim with scissors

ANKLE SUPPORTS

62019 ANKLE SUPPORT

SIZE | S M L XL

INDICATIONS

- Articular effusion and swelling
- Mild ankle sprain

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Anatomical cutting for comfortable fit and protection
- Open-heel design for precise fit and easy application

62020 ANKLE BRACE WITH STRAP

SIZE | S M L XL

INDICATIONS

- Ankle instability
- Mild to moderate ankle sprain

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Spiral metal stays restrict lateral movement and provide stabilization
- Elastic strap reinforces the ankle against inversion torsion
- Open-heel design for precise fit and easy application

62021 ANKLE BRACE WITH STRAP

SIZE | S M L XL

INDICATIONS

- Ankle instability
- Mild to moderate ankle sprain

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Elastic strap reinforces the ankle against inversion torsion
- Open-heel design for precise fit and easy application

62018 FOOT LIFT

SIZE | S M L

INDICATIONS

- Support drop foot raising during ambulation

FEATURES

- Powerful elastic strap can assist and stimulate ankle raising movement
- Impeding normal ankle movement during ambulation
- Low profile and breathable fabric design enhances compliance
- Easy to put on and take off via quick release

62025 AIR STIRRUP BRACE

SIZE | UNIVERSAL

INDICATIONS

- Articular effusion and swelling
- Moderate ankle sprain with instability
- Chronic ankle instability

FEATURES

- Anatomically-contoured shells support subtalar joint
- Easy-to-adjust heel strap for precise fit and comfort
- Inflatable air cushion offers comfort and compression to reduce edema

62026 AIR/GEL STIRRUP BRACE

SIZE | UNIVERSAL

INDICATIONS

- Articular effusion and swelling
- Acute ankle sprain with instability
- Chronic ankle instability

FEATURES

- Anatomically-contoured shells support subtalar joint
- Bladder combines air and gel for securely stabilizing the ankle joint
- Gel can be placed in the freezer for cold therapy to swollen ankles

wellcare

BACK BRACE

BACK BRACE

24001 JEWETT HYPEREXTENSION BRACE

SIZE S M L XL

INDICATIONS

- Postural kyphosis
- Stable spinal compression fractures (T7- L2) without osteoporosis

FEATURES

- Easy to adjust the width and height of frame
- Lightweight aluminum alloy frame with soft padding
- Three-point pressure control provides stabilization and helps to correct kyphotic posture
- Flexible pelvic band and floating sternal plate for optimal fit and comfort

24002 THORACOLUMBAR SPINE SUPPORT

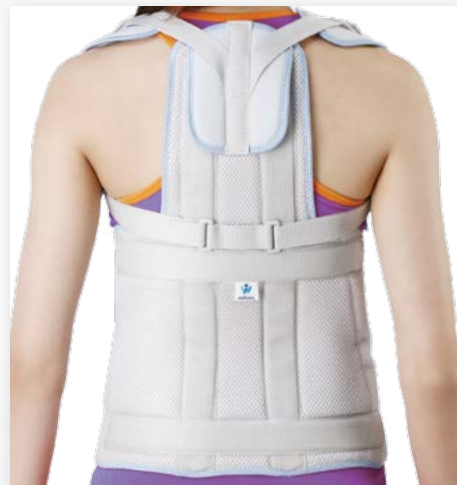

SIZE S M L XL

INDICATIONS

- Following lumbar laminectomy, discectomy or spinal fusion
- Kyphosis with chronic back pain
- Immobilization for below T7 thoracolumbar fractures

FEATURES

- Paraspinal uprights and chairback design maintain the spine in neutral position
- High-tension elastic straps produce intracavitary pressure and offer stability
- Bilateral shoulder pads provide optimal comfort

23020 PULLEY SPINAL BRACE

SIZE S M L XL XXL

INDICATIONS

- Mild disc problems
- Chronic back pain
- Stable bony injury

FEATURES

- Enhance core muscle function with adjustable pulley system
- Keep abdominal pressure in stable for support and improve tissue healing after injuries around low back
- Extra firm and breathable foam for superior wearing comfort and support

23021 LSO PULLEY SPINAL BRACE

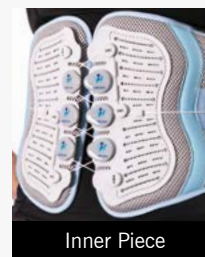

SIZE S M L XL XXL

INDICATIONS

- Mild to moderate disc problems
- Chronic back pain
- Following spinal surgery

FEATURES

- Back panel adds stabilization
- Enhance core muscle function with adjustable pulley system
- Keep abdominal pressure in stable for support and improve tissue healing after injuries around low back

Inner Piece

23016 AIRFOAM LUMBAR SUPPORT

SIZE S M L XL XXL

INDICATIONS

- Mild spondylolysis
- Mild disc problems
- Degenerative condition

FEATURES

- Light and thin neoprene material plus breathable air mesh for optimal fit
- Easy to adjust pressure with imbedded air pump system
- Cross straps add stabilization around low back
- Low profile style for all day comfort

Air Pump System

23003 ABDOMINAL BINDER

SIZE S M L XL XXL

INDICATIONS

- Postoperative fixation of abdomens

FEATURES

- Provides fixation to both upper and lower abdomen
- Breathable foam and skin-friendly lining for wearing comfort
- High elastic material adds firm compressive support

23004 ELASTIC LUMBAR SUPPORT

SIZE S M L XL XXL

INDICATIONS

- Low back pain
- Low back sprain and strain
- Degeneration of the spine

FEATURES

- High elastic material adds firm compressive support
- Flexible stays plus effective side-pulls provide firm support and secure fit

23005 LUMBAR SUPPORT WITH STAYS

SIZE S M L XL XXL

INDICATIONS

- Low back pain
- Low back sprain and strain
- Degeneration of the spine

FEATURES

- Made of high quality vented elastic band for comfort and breathability
- Effective side-pulls provide firm support and secure fit
- Metal stays provide support and stabilization

23006 THERMO LUMBAR SUPPORT

SIZE | S M L XL XXL

INDICATIONS

- Low back pain
- Low back sprain and strain
- Degeneration of the spine

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Metal struts and bilateral elastic side-pulls offer optimal stability
- Pliable stays gradually assist the lumbar spine to the normal curvature

Front View

23007 LUMBOSACRAL SUPPORT

SIZE | S M L XL XXL

INDICATIONS

- Back sprain and strain
- Disc problems
- Mild spondylolisthesis

FEATURES

- Foam padding material for support and comfort
- Six metal stays restrict over lordotic posture and add stabilization
- Effective side-pulls provide firm support and secure fit

23009 LUMBAR STABILIZER

SIZE | S M L XL

INDICATIONS

- Back sprain and strain
- Disc problems
- Mild spondylolisthesis

FEATURES

- Additional polymer pad for pain relief and massage effect
- Air mesh material for breathability and comfort
- Keep abdominal pressure in stable for stabilization

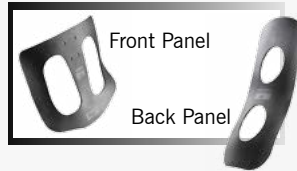

Polymer Pad

23010 MOLDED BODY JACKET

SIZE S M L XL

INDICATIONS

- Following lumbar laminectomy or discectomy
- Below T11 thoracolumbar compression fractures

FEATURES

- Removable anatomically contoured rigid anterior and posterior panel for stabilization
- Effectively restrict movement of thoracolumbar spine
- Hook and loop closures for secure fit and support

23011 MATERNITY SUPPORT BELT

SIZE S M L XL

INDICATIONS

- Low back pain and discomfort during pregnancy

FEATURES

- Lift the weight of belly and provide stabilization to low back
- Bilateral stretchable side-pulls for greater support

26022 COUNTER HIP BRACE

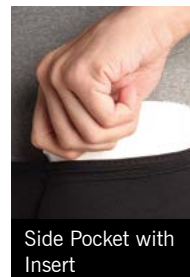

SIZE S M L XL L/R

INDICATIONS

- Hip sprain and strain
- Reminder for following hip orthosis removal

FEATURES

- Side pocket with cushioning pad helps to support and protect hip joint
- Highly breathable and skin-friendly material for optimal fit and comfort
- Easy to put on and take off with wrap around design

wellcare

SHOULDER
BRACE

SHOULDER BRACE

SHOULDER BRACE

21014 PILLOW ARM ABD IMMOBILIZER

SIZE S M L XL

INDICATIONS

- Following shoulder surgery
- Shoulder dislocation or subluxation
- Shoulder hand syndrome

FEATURES

- ABD pillow keeps shoulder joint in place
- Hand grip for better support, shoulder strap for pressure relief

21018 METAL ARM ABD IMMOBILIZER

SIZE S M L XL

INDICATIONS

- Following shoulder surgery
- Shoulder dislocation or subluxation
- Shoulder hand syndrome

FEATURES

- Adjustable metal stay keeps shoulder joint in place
- Hand grip for better support, shoulder strap for pressure relief

21001 SHOULDER ABDUCTION IMMOBILIZER

SIZE S M L XL

INDICATIONS

- Following shoulder surgery
- Shoulder dislocation or subluxation

FEATURES

- Immobilize shoulder joint in 15° abduction
- Foam padded shoulder straps for optimal comfort
- Contoured pillow adds stability and support
- Additional exercise ball facilitates hand function and enhances circulation

21002 SHOULDER IMMOBILIZER AB45

SIZE S M L XL L/R

INDICATIONS

- Following shoulder surgery
- Shoulder dislocation or subluxation

FEATURES

- Immobilize shoulder joint in 45° abduction
- Foam padded shoulder straps for optimal comfort
- Contoured pillow adds stability and support
- Additional exercise ball facilitates hand function and enhances circulation

21003 MESH SLING/ 21004 TC SLING

SIZE | S M L XL

INDICATIONS

- Protect and stabilize injured arm and shoulder
- Support fractured arm

FEATURES

- Thumb loop and shoulder strap provide stability
- Breathable mesh lining for optimal compliance (21003)
- Made of durable, light and breathable fabric (21004)

21013 HUMERAL FRACTURE BRACE

SIZE | S M L XL

INDICATIONS

- Mid to distal third closed humeral shaft fractures

FEATURES

- Ideal application to assist early and proper healing
- Adjustable straps offer desired compression to soft tissues
- Allow full range of motion at shoulder and elbow joints
- Fits left and right sides
- With two cotton stockinette and an arm sling

21005 UNIVERSAL SWATHE SLING

SIZE | UNIVERSAL

INDICATIONS

- Immobilization after surgical repair and humeral lesion
- Support to upper extremity paralysis and hemiplegia

FEATURES

- Arm cradle style for comfortable and secure fit
- Chest swathe enhances the stabilization of shoulder joint

21006 SHOULDER SUPPORT

SIZE | S M L XL

INDICATIONS

- Shoulder instability
- Shoulder tendinitis or overuse injury
- Chronic shoulder pain following hemiparesis

FEATURES

- Protect and support shoulder joint
- Easy to adjust with hook and loop fasteners

SHOULDER BRACE

21007 POSTURE SUPPORT BRACE

SIZE S M L XL

INDICATIONS

- Clavicle fractures and postural correction

FEATURES

- Made of high quality vented elastic band for comfort and breathability
- Crisscross design adds additional trunk support

21008 POSTURE CORRECTIVE BRACE

SIZE S M L XL

INDICATIONS

- Clavicle fractures and postural correction

FEATURES

- Made of high quality vented elastic band for comfort and breathability
- Easy to put on and take off with front closure design

21009 UNIVERSAL CLAVICLE SUPPORT

SIZE UNIVERSAL

INDICATIONS

- Clavicle fractures
- Round shoulder

FEATURES

- Foam padded shoulder straps with velvet lining for cushioning and stabilization
- Easy to adjust with hook and loop fasteners

21010 CLAVICLE SUPPORT

SIZE S M L XL

INDICATIONS

- Clavicle fractures
- Round shoulder

FEATURES

- Foam padded shoulder straps with velvet lining for cushioning and stabilization
- Easy to adjust with hook and loop fasteners

wellcare

ELBOW
BRACE

ELBOW BRACE

31002 POST-OP ELBOW BRACE

SIZE UNIVERSAL L / R

INDICATIONS

- Following elbow surgery
- Stable fractures

FEATURES

- Control elbow flexion from 0° to 120° and extension from 0° to 90° in 10° increments
- Foam padded shoulder straps with velvet lining for cushioning and stabilization
- Adjust with simple rotate and press-lock settings
- Easy to adjust size with telescoping length adjustment design
- Specifically for left and right elbow
- Provide single brace without strap as customer's order: 31001

Telescoping Design

Lock Button

ROM Setting

31003 ELBOW PROTECTOR

SIZE S M L XL

INDICATIONS

- Tennis elbow/ golfer's elbow
- Overuse injury or ligament sprain

FEATURES

- Easy to adjust with hook and loop fastener
- Plastic shell adds compression and stabilization
- Provide pressure relief around inflamed soft tissues

31004 ELBOW STRAP WITH PAD

SIZE S M L XL

INDICATIONS

- Tennis elbow/ golfer's elbow
- Overuse injury or ligament sprain

FEATURES

- Imbedded padding provide pressure relief around inflamed soft tissues
- Neoprene material provides warmth and compression, enhances circulation for healing

31005 ELBOW STRAP

SIZE | S M L XL

INDICATIONS

- Tennis elbow/ golfer's elbow
- Overuse injury or ligament sprain

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Provide pressure relief around inflamed soft tissues

31006 AIRFORM ELBOW STRAP

SIZE | UNIVERSAL

INDICATIONS

- Tennis elbow/ golfer's elbow
- Overuse injury or ligament sprain

FEATURES

- Inflated air cell adds pain relief and compression
- Provide pressure relief around inflamed soft tissues

31009 NEOPRENE ELBOW SLEEVE

SIZE | S M L XL

INDICATIONS

- Joint effusion and swelling
- Overuse injury or ligament sprain

FEATURES

- Neoprene material provides warmth and compression, enhances circulation for healing
- Air mesh fabric adds breathability and comfort

WRIST BRACE

42006 FUNCTIONAL POSITION SPLINT

SIZE XS S M L L/R

INDICATIONS

- Following wrist and hand surgeries
- For all cases of wrist hand dysfunction
- Neurological disabilities

FEATURES

- Prefabricated splint keeps wrist and hand in functional position
- Made of breathable foam and skin-friendly lycra material
- Easy to adjust with hook and loop fasteners
- Designed specifically for left and right hand

Side View

Splint

42026 UNIVERSAL WRIST SPLINT

SIZE S/M L/XL

INDICATIONS

- Carpal tunnel syndrome
- Following wrist and hand surgeries
- Rheumatoid arthritis

FEATURES

- Universal design with palmar splint fits both left and right hand
- Support wrist joint in neutral position
- Breathable material with soft foam padding for all day comfort
- Easy to fit and adjust with hook and loop closures

Dorsal View

42027 CTS WRIST ORTHOSIS

SIZE XS S M L

INDICATIONS

- Carpal tunnel syndrome
- Following wrist and hand surgeries
- Immobilize wrist and fingers
- Overuse injury

FEATURES

- Immobilization from forearm to distal finger joints
- Contoured and malleable palmar splint provide optimal fit and stabilization
- Light weight low profile style for comfort and compliance
- Universal design fits both left and right hand

Dorsal View

WRIST BRACE

42002 THUMB SPLINT

SIZE | S M L L/R

INDICATIONS

- De Quervain syndrome
- Gamekeeper's thumb
- Stabilization of 1st MP joint

FEATURES

- Perforated shell improves breathability
- Ergonomically contoured plastic shell for stabilization
- Designed specifically for left and right thumb

Palmar View

42005 THUMB BRACE

SIZE | S M L XL L/R

INDICATIONS

- De Quervain syndrome
- Gamekeeper's thumb
- Thumb ligament sprain

FEATURES

- Anatomically contoured thumb splint restricts thumb movement
- Neoprene material provides warmth and compression, enhances circulation for healing
- Designed specifically for left and right thumb

42003 WRAP-AROUND WRIST BRACE

SIZE | UNIVERSAL

INDICATIONS

- Wrist instability
- Overuse injury or wrist sprain

FEATURES

- Wrap-around and universal style fits both left and right hand
- Low cut design allows for free hand movement

42001 UNIVERSAL WRIST BRACE

SIZE | UNIVERSAL

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain

FEATURES

- Universal design with removable palmar stay, fits both left and right hand
- Help to keep wrist joint in neutral, relieve pain and stress

Reversible Stay

42007 WRIST/FOREARM SPLINT

SIZE | S M L XL L/R

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain
- Following wrist surgery

FEATURES

- Perforated suede material adds breathability
- Longer palmar stay enhances stability

42010 WRIST SPLINT

SIZE | S M L XL L/R

INDICATIONS

- Overuse injury or wrist sprain
- Carpal tunnel syndrome

FEATURES

- Breathable foam and air mesh material adds breathability and comfort
- Palmar and dorsal stays provide support and stabilization

Dorsal View

42012 WRIST SPLINT WITH THUMB

SIZE | S M L XL L/R

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain
- De Quervain syndrome

FEATURES

- Palmar and thumb stays help to stabilize thumb and wrist
- Made of breathable foam and lycra material for optimal fit and comfort

WRIST BRACE

NECK BRACE

42008 WRIST BRACE

SIZE | S M L XL L/R

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain

FEATURES

- High elastic band plus a strap support and stabilize wrist joint
- Palmar stay restricts wrist movement

Dorsal View

42009 WRIST BRACE

SIZE | S M L XL L/R

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain

FEATURES

- High elastic band stabilizes wrist joint
- Palmar stay restricts wrist movement
- Easy to adjust with hook and loop closures

Dorsal View

42011 WRIST BRACE

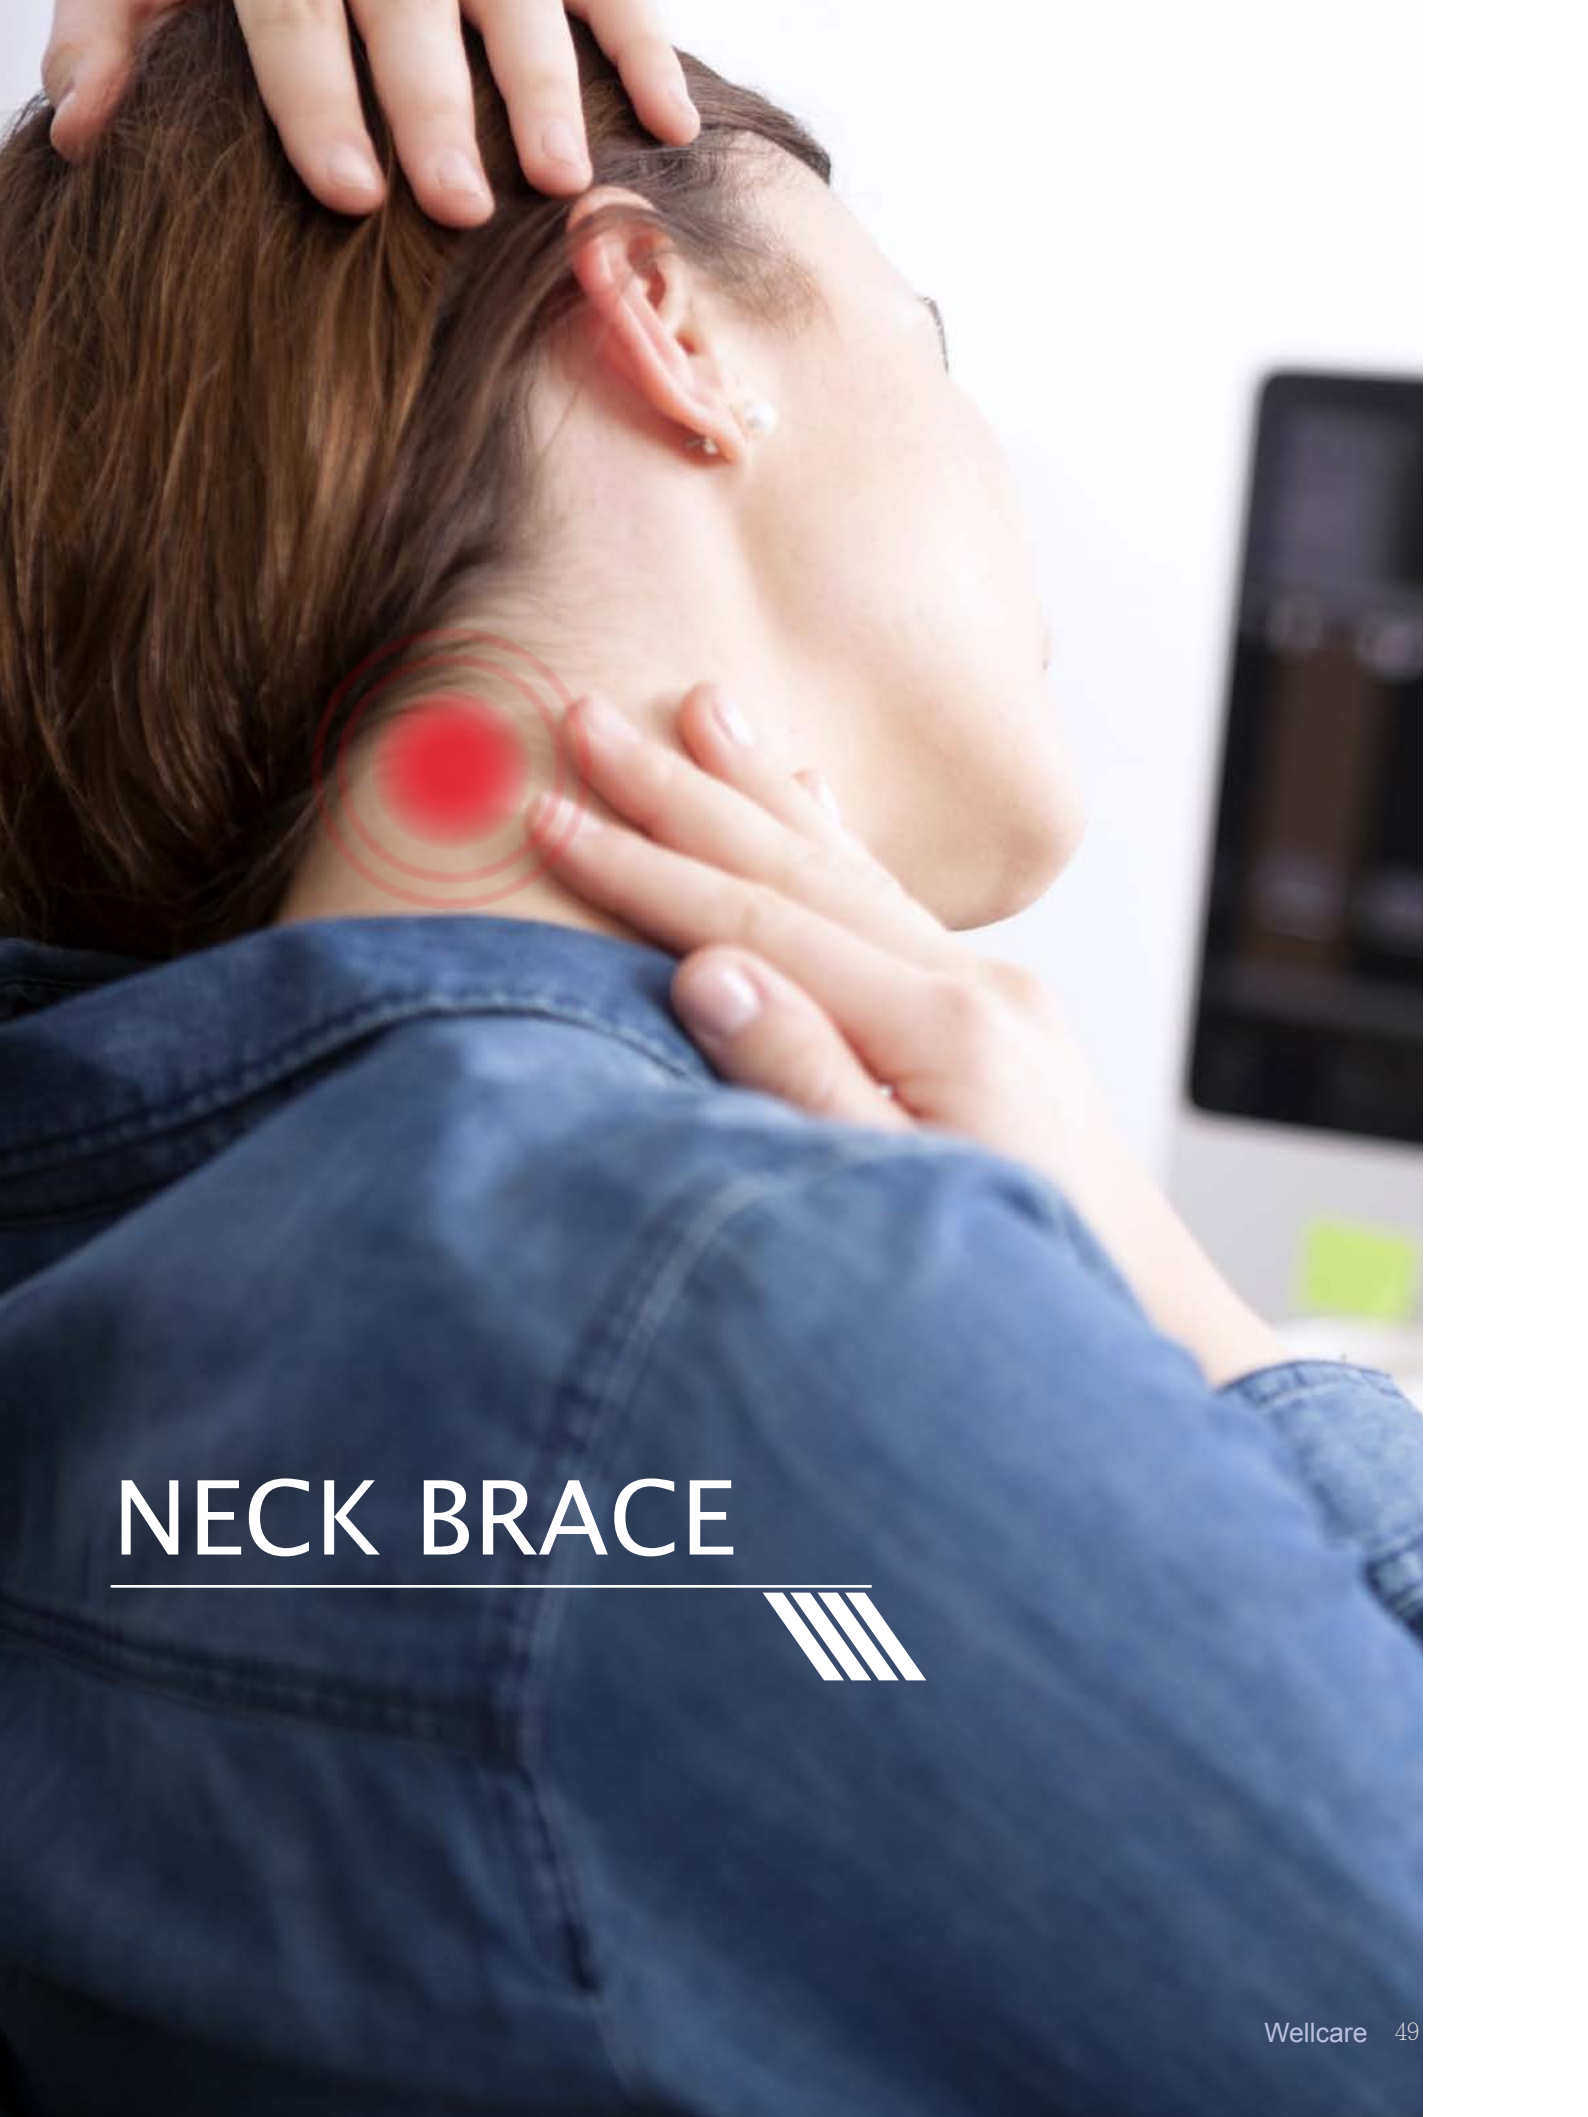

SIZE | S M L XL L/R

INDICATIONS

- Carpal tunnel syndrome
- Overuse injury or wrist sprain

FEATURES

- Palmar stay helps to stabilize wrist joint
- Made of breathable foam and lycra material for optimal fit and comfort
- Low cut design allows for free hand movement

NECK BRACE

12001/12002 SOFT COLLAR

SIZE XS S M L XL

INDICATIONS

- Immobilization for cervical spine
- Neck sprain or strain
- Cervical spondylosis

FEATURES

- Medium density foam collar with chin support
- Limit excessive neck movement
- Easy to adjust with hook and loop fasteners
- 12002: firm density version

12003 TRACHEOTOMY COLLAR

SIZE S M L XL

INDICATIONS

- Following spinal surgery
- Stable cervical fracture

FEATURES

- Lightweight and firm foam support plus plastic splint reinforcement
- With trachea opening
- Anatomical design fits chin and neck, supports cervical spine in neutral position

12004 RIGID SPLINT COLLAR

SIZE S M L XL

INDICATIONS

- Following spinal surgery
- Neck sprain or strain
- Cervical spondylosis

FEATURES

- Help to keep cervical spine in neutral
- Perforated splint with foam padding adds comfort and compliance
- Easy to adjust with hook and loop fasteners

12005 RIGID SPLINT COLLAR WITH CHIN SUPPORT

SIZE S M L XL

INDICATIONS

- Following spinal surgery
- Cervical spondylosis

FEATURES

- Help to keep cervical spine in neutral
- Perforated splint with foam padding adds comfort and compliance
- With chin support

FOOT CARE

63001 FULL LENGTH INSOLE

SIZE XS S M L XL

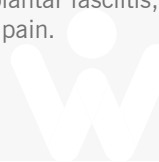

- Ideal for heel pad pain and metatarsalgia. The dual-density silicone insole is capable of absorbing ground reaction force during different phases of the gait cycle. It also helps alleviate pain and provide cushion.

63002 3/4 LENGTH INSOLE

SIZE S M L

- Lower-density blue silicone enhances the shock absorption of heel-strike. With a built-in longitudinal arch and heel elevation, the orthosis is capable of absorbing up to 40% of shock impact at heel-strike. Recommended for plantar fasciitis, heel spurs and heel pain.

63003 SILICONE INSOLE WITH METATARSAL PAD

SIZE S M L

- Ideal for relieving forefoot pressure of high-heel user. It has a built-in soft blue dome, which helps to keep metatarsal head in natural alignment and avoids callus built-up.

63004 HEEL CUP CENTRAL SPUR

SIZE S M L XL

- The dual density extra soft silicone heel cup is ideal for heel pad pain or spurs formation in the middle area. It helps relieve pressure and provide additional heel stability.

63005 HEEL CUP LATERAL SPUR

SIZE S M L XL

- The dual density silicone orthosis provides heel support and additional relief to sensitive heel pad pain or heel spurs in the lateral area. Heel cushions also reduce the strain on Achilles tendon.

63006 HEEL CUSHION WITH REMOVABLE PAD

SIZE S M L

- It offers protection and relief to heel spur formation. The removable pad design distributes body weight away from the affected area by unloading painful spur. It also reduces strain on ligaments and Achilles tendon.

63007 HEEL CUP

SIZE | S M L XL

- The silicone inserts help to protect the calcaneus from shock impact or abrasion. Heel cup increases the stability of ankle joint. Recommended for prevention of painful heel and plantar fasciitis.

63008 "U" SHAPED HEEL CUSHION

SIZE | S M L

- It serves as a support for securing stability to the calcaneus.
- The silicone material also offers cushion function to absorb shock impact and redistribute pressure away from painful area.

64001 BUNION CORRECTOR

SIZE | S M L L/R

- Ideal for hallux valgus. The aluminum stay helps to keep the big toe in normal alignment. Additional thickening foam padding with breathable fabric provides comfortable correction and immobilization.

64002 BUNION NIGHT SPLINT

SIZE | S M L L/R

- Ideal for hallux valgus. The Night Splint keeps the big toe in normal position with gentle corrective torque. It helps straighten the big toe that is overlapping the second toe, which is usually related to bunion formation.

64003 TUBULAR TOE PROTECTOR

SIZE | S M L

- The product is made of 15cm length knitted fabric lined with mineral oil gel for protecting toes. It prevents all friction and shearing to the skin.

64004 TOE CAP

SIZE | S/M L/XL

- The Toe Cap shelters the tip, dorsal and plantar aspects of the toes to protect the lesion located on the toes and nail. Silicone material eases friction on the corns, blisters, and calluses.

64005 TOE RING

SIZE | S M L

- The Toe Ring, which is made of silicone material, protects the toes from friction and pressure affecting on blisters, calluses and corns.

64006 METATARSAL PAD

SIZE | S/M L/XL

- Ideal for conditions such as fat pad atrophy, metatarsalgia and Morton's neuroma. It is able to alleviate painful friction and support to the metatarsal heads during walking.

64007 HALLUX VALGUS SHIELD

SIZE | S/M L/XL

- The molded silicone orthosis absorb lateral shock and minimize friction on the bunion area. It brings constant relief of the affected area.

64008 5th TOE BUNION SHIELD

SIZE | S/M L/XL

- The molded silicone orthosis is capable to prevent callus formation and help relieve pain and pressure over the bunion area.

64009/64010 TOE SEPARATOR

SIZE | S M L

- The extra soft silicone Toe Separator isolate toes from rubbing and protect the sensitive toes. Recommended for overlapping toes and pinched toes.

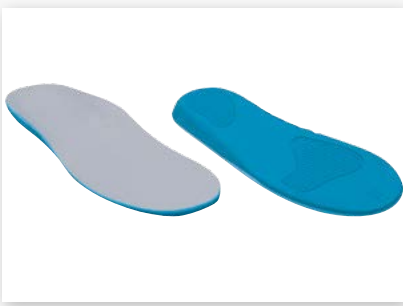

64011 BUNION SEPARATOR

SIZE | S/M L/XL

- The molded silicone orthosis absorbs lateral shock, minimizes friction on the bunion area and keeps toes from overlapping with each other. It brings constant relief of the affected site. Suitable for big toe or 5th toe bunion. Recommend S/M size for 5th toe bunion and L/ XL for big toe.

NEW

63103 FULL LENGTH CUSHIONING INSOLE

SIZE S/M L/XL

INDICATIONS & FEATURES

- For plantar fasciitis or heel pain syndrome
- Resilient foam and soft lining provides comfort and cushioning
- Dual density area for structural support and stress relief
- Also helps alleviate pain and provide cushion effect

63106 3/4 ARCH SUPPORT

SIZE S M L XL

INDICATIONS & FEATURES

- For moderate heel pain and unstable gait
- Semi-rigid arch support for structural control
- Provide advanced stabilization with gel cushioning around heel cup

63108 KIDS ORTHOTICS

SIZE 17 18 19 20

INDICATIONS & FEATURES

- For lifting and developing foot arch of kids
- Structural control and support aid in arch development
- Breathable fabric, supportive contoured design for comfort and compliance
